Sign Services TORONTO

professional sign and graphics installations

Quick facts

01 Company

Toronto Sign Services is a company created by sign industry professionals specializing in various sign installations. We do only sign installations and are not involved in design and printing. Most of our clients are mid to large-scale sign and printing companies from Canada and the USA.

Our biggest advantages are deep knowledge of all sides of the sign business, years of experience, constant installers' training and personalized approach to each account.

We've been involved in some most ambitious signage project in Ontario and Canada. Our clients are global retail chains and financial institutions.

We can handle the most difficult tasks with extreme professionalism and make any sign company look good before their clients.

02 People

Unlike many other companies, Toronto Sign Services was originally built by sign installers and not by office people. We believe that a good sign installer doesn't have any time to be at the office. We are always on the road or on a job.

Our clients use us for years because they trust us.

We are professional enough for our clients to fly our installers around the country to do installations at every corner of Canada.

Every year we install several thousands signs, apply over 200.000 sq.ft. of vinyl and wrap over 100 various vehicles.

We have 3 permanent and 6 affiliated installers with 8 to 20 years of experience in signage.

Our installers are certified, insured and covered by WSIB.

03 Service

We are not trying to do it all rather specializing in the most challenging signage installation types. Please read the following section for an overview of what we do.

We are not the cheapest but we are the fastest and most professional installers in Ontario. From one time installations to long-term campaigns we can always schedule your job to make any high-end client happy.

We don't have days off. We work almost every night and every early morning because of this business nature.

We spend thousands of dollars on the best equipment and materials in Northern America.

Less then 1% of all our jobs have any problems related to an installer's mistake.

Clients

We are nothing without our cherished, respected and reputable clients. We commit to delivering the highest service standards in the industry while they trust us with jobs for largest Canadian, American and Global brands.

Here are some facts about our clients.

75% of our clients are based in canada and 25% in the USA.

Over 80% of our business comes from companies working with us for over 1 year.

0% of all our customers were found by actively promoting our services. We don't have sales people so our clients contact us first.

Approximately 50% of all new clients are referrals from our exisiting customers.

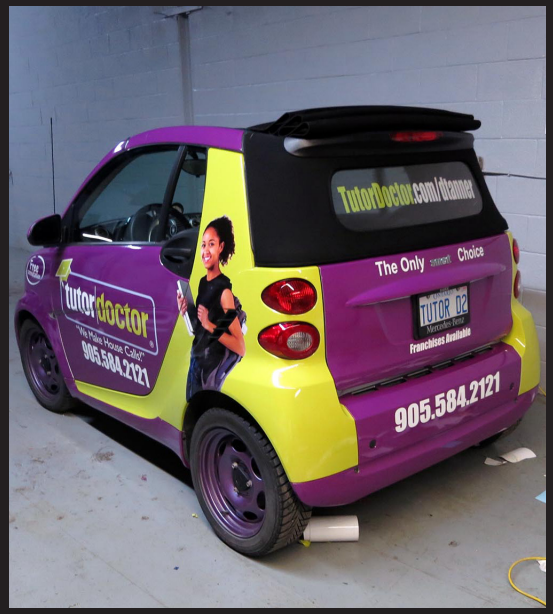
- 5.000.000$ commercial liability insurance
- WSIB covered

3M Preferred
Graphics Installer

AVERY DENNISON
CWI
CERTIFIED
WRAP INSTALLER



A passion for wrap

We do wraps and we do them good. We can wrap pretty much any vehicle from a Mini to a Boeing. We've done graphics installation on cars, trucks, trailers, street cars, busses and trains. No matter how hard it is, we can handle it.

A wrap is always about installation. You can create a perfect design and print on the best vinyl but an inexperienced installer will ruin everything including your client's car and your reputation.

We are doing over 100 vehicle wraps a year. We've been trained and certified both by 3M and Avery. Why trust your wrap job to anyone less experienced?
